Newsletter

Dear ESSENSE-Follower,

the development phase of the ERASMUS+ ESSENSE project is approaching the end.

We are happy to inform you that all training material has been developed and will be provided to you soon. Before that we call for a pilot testing of this training material as well as the usability of the developed collaboration platform.

We would very much appreciate if you would participate [to this pilot test](#) to further improve the programme. You find further information in the newspaper below.

Furthermore, we invite you to our [international final event on September 22nd](#). An AAL expert will give a short introduction of the possibilities of AAL within housing environments and the project partner will introduce you to the learning material and outcome of the programme. Of course there will be enough time for questions and answers.

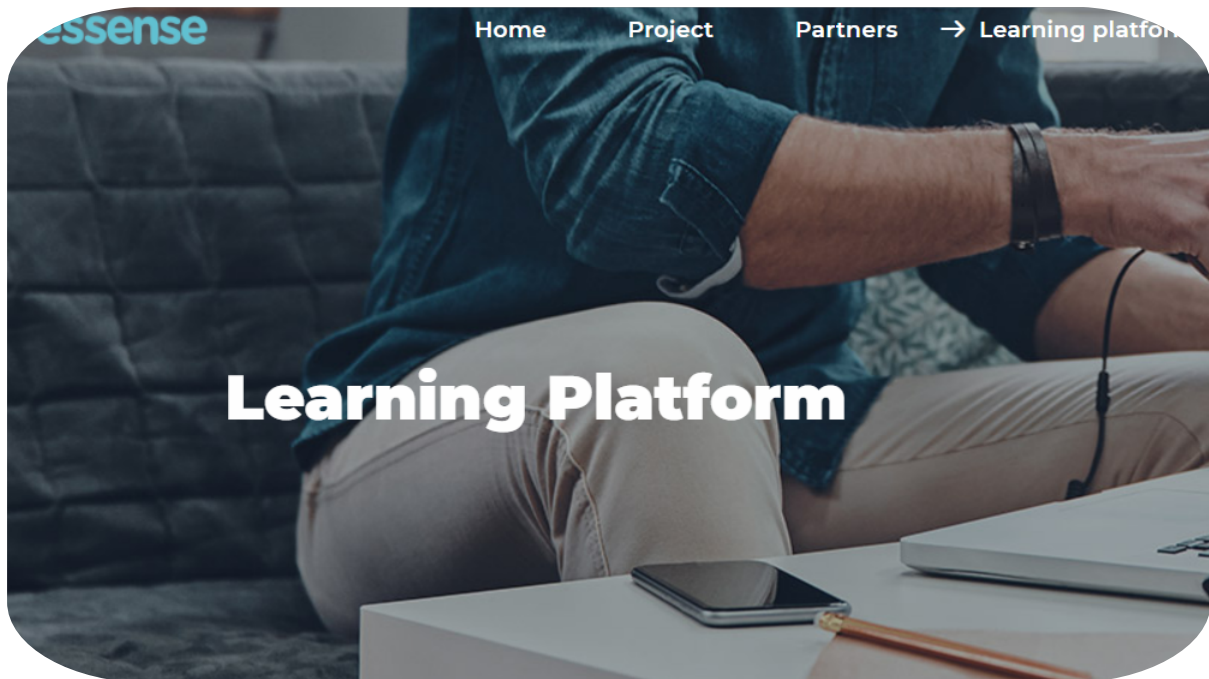

We would be very pleased if you recommend our newsletter and the ESSENSE project to interested colleagues. Please register for the newsletter [here](#). ESSENSE is also on Twitter, follow us [here](#).

All the best,
the ESSENSE Team

More information at the [ESSENSE website](#)

We need support: Pilot testing starts now

The ESSENSE learning platform is ready to go! Now the contents of the joint curriculum and didactic materials will be assessed within the eLearning platform. Furthermore, the individual roles of all platform actors, such as Admin, Lecturer, Student and Guest, will be tested extensively. The administration, e.g., course registration, course management and delivery of the course content, will be tested in a live setting.

This action will enable to revise the didactic materials and eLearning platform functionalities. This evaluation will ensure the improvement of usability of the platform as well as quality of the didactic contents. It will contribute significantly to an useful and enriching learning program in the end – available and free for everybody.

Your support

Therefore we need your support. Please help us and share your experience with us. Everybody is welcome to try out our learning platform and enjoy learning and achieving the next level of excellence with the modules prepared by the ESSENSE project team.

You will directly use the platform for testing the module: including texts, videos and exercises in the end of the module. Use this wonderful opportunity to increase your knowledge, at your own learning pace. For testing please click [on this link](#) and create an account for the platform.

If you have any technical problems or further questions regarding the pilot test, [please contact us](#).

Good to know: You can test the full programme or split the test in little sessions and evaluate each module or even each unit separately. Testing one module takes you 4,5 hours on average.

Register now for the final ESSENSE-Event

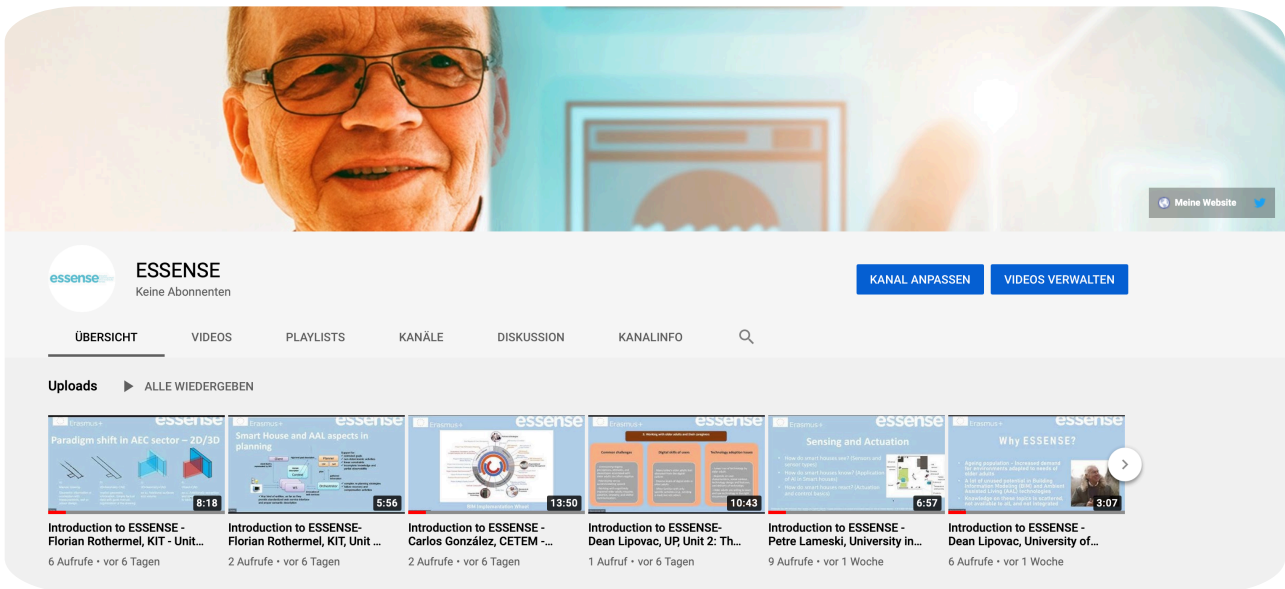

The European consortium invites you to present the outcome and advantages of the EU Erasmus+ Project ESSENSE with the final event "Opportunities of BIM & AAL for Living Environments for Seniors: EU Erasmus+ Project ESSENSE".

Agenda

- Welcome and Introduction
- Keynote presentation
- ESSENSE Project and Outcome
- Outlook

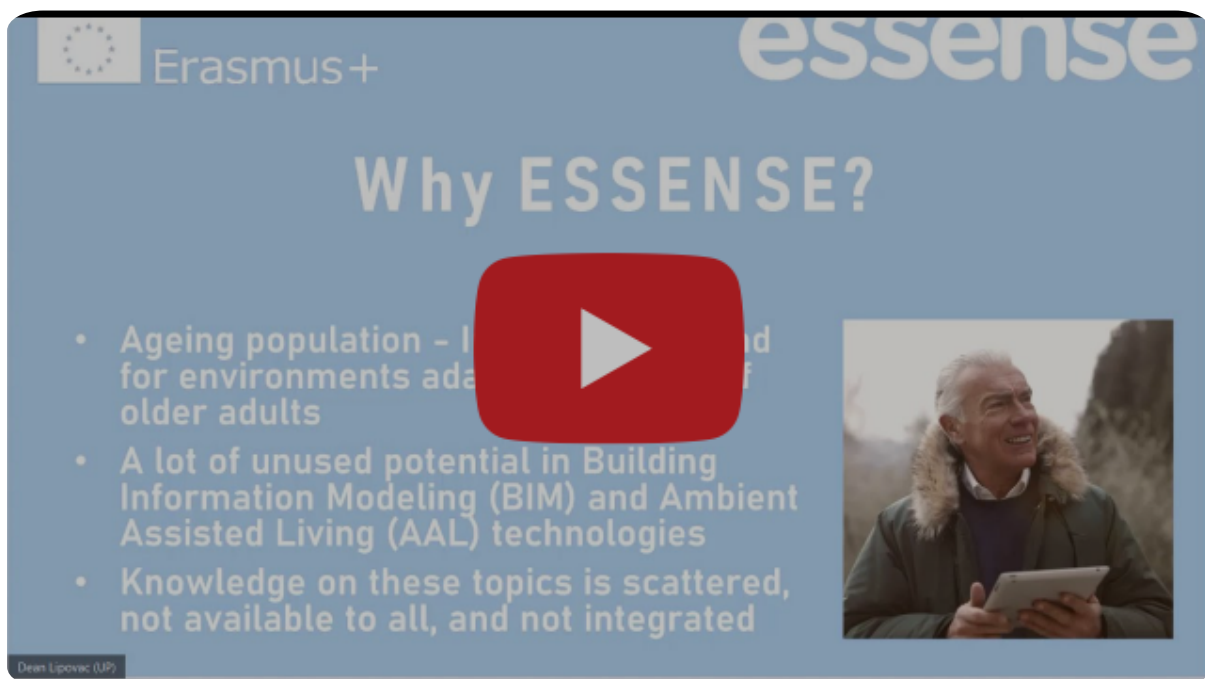

[International final event: September 22nd 2021](#)

ESSENSE on YouTube

The ESSENSE YouTube channel

ESSENSE is now on YouTube. Watch the introduction to ESSENSE below by or the new [short videos of the five units](#) in our YouTube-channel. The complete educational programme will be freely available at the end of the project in 2021 on the ESSENSE Collaborative Platform with innovative quizzes, exercises and some extra lectures.

Dean Lipovac from the University of Primorska (UP), Koper, Slovenia introduces ESSENSE and its 5-Unit-Educational course.
